WR100

WR100 is an Advanced Semi-automatic Pallet Wrapper.

The WR100 model is a semi-automatic wrapping machine for palletized loads suitable for every shape, dimension and weight using stretch film. Provided with a digital control panel that allows, in a very easy and functional way, the programs management and the wrapping parameters set-up.

Key Features

- For pallets of height up to 2100 mm
- Needs only 1100 mm free space around the load to operate
- Safety bumper
- Operation indicator light and beeper
- 2 x 12V battery with incorporated battery charger
- Rudder for easy motorized robot moving
- Adjustable height tracing wheel
- Rear forklift access
- Advanced control panel
- Friendly control panel
- Film carriage with clutch (mechanical or electromagnetic) or powered prestretch (up to 220%)
- Pallet height photocell
- Up to 120 pallets without recharging (W 800 x L 1200 x H 1800)
- Emergency wheel

Optionals

- Masts for pallet up to 2600 mm / 2800 mm
- Automatic film cutting device in the powered pre-stretch carriage (PST)
- Remote control
- Photocell for black film or colored products

Other customizations on request.
